

As part of the global Hexagon Group, the CALIPRI business unit is shaping the future of optical profile, gap, and flush measurement. Our technologies set international benchmarks and help industrial companies make their processes more precise, efficient, and safe. We combine the strength of an international technology leader with a familiar, collaborative working atmosphere—an environment where innovation comes naturally and every contribution matters.

Our unique technologies and a highly engaged team are the key drivers of our growth. Thanks to our lean organizational structure, we work quickly and transparently while offering plenty of room for individual ideas and initiative. Flexible working hours, a strong commitment to work-life balance, and attractive employee benefits create a working environment where modern ways of working and appreciation are truly valued.

We are looking for an experienced

## TECH LEAD C/C++ AND PYTHON (M/F/D)

to join our engineering team in Graz. This role is ideal for experienced developers with an interest in technical leadership. The ideal candidate will demonstrate motivation, curiosity, and a willingness to grow and will have passion for collaborative work and continuous improvement.

### YOUR RESPONSIBILITIES:

- ✓ Technical software lead for an existing product line covering both components in series production and customer specific features
- ✓ Design and implementation of software as part of an interdisciplinary project team covering product features as well as related production-, test-, and maintenance-tools
- ✓ Continuous improvement of the existing software architecture
- ✓ Maintenance of existing software components and continuous integration toolchains
- ✓ Contribution to the continuous improvement of the software quality
- ✓ Documentation of software features for internal and external customers

### REQUIREMENTS:

- ✓ University Degree in Computer Science, Software Engineering or a related field
- ✓ Experience as software developer for industrial applications in a Linux environment
- ✓ Strong development skills in C/C++ and Python
- ✓ Previous experience in a leading role is a plus
- ✓ Experience with build systems and continuous integration infrastructure
- ✓ Open-minded team-player with excellent problem-solving and communication skills
- ✓ Fluent in German and English

### WHAT WE OFFER:

- ✓ Full-time and permanent employment
- ✓ Possibility to shape the architecture and tooling landscape for a product line
- ✓ Supportive, experienced team
- ✓ Modern working model and office
- ✓ Opportunity to make a broad impact in a team with room for professional growth
- ✓ On-the-job training, including pair programming
- ✓ Access to Hexagon's internal Academy and learning tools
- ✓ Simply because we have to mention it: the salary is based on the collective agreement for employees in the metal industry with a minimum of € 3.893,09.  
Certainly your performance is worth more, let's talk about it
