

CALIPRI VISION STATEMENT

As an innovative global technology company, we understand our customers' world. Our measurement technology enhances safety, quality, and sustainability, contributing to an autonomous future.

CALIPRI MISSION STATEMENT

We strive for excellence in our solutions, every day.
For people.
With people.

IDENTITY

We act with professionalism and confidence as a center of expertise for measurement technology in Graz. Our problem-solving DNA forms the basis of our success and arises from the uniqueness of each person. Our mindset inspires customers and colleagues around the world.

INNOVATION

We create cutting-edge measurement technology. As a leader in technology, we spot trends and work with experts globally to develop innovative solutions. Our unconventional thinking allows us to push boundaries.

GROWTH

We consistently and ambitiously grow as individuals and as an organization in all areas. Strategic solutions and business models open up new markets for us. Our market presence and the visibility of our success make us a global player. Think big!

EMPLOYEES

We operate as a strong team in a stable and fair environment. Our spirit is defined by long-term partnerships based on mutual support and respect. We take responsibility.

CUSTOMER FOCUSED

We connect with our customers using both heart and mind, fully understanding their daily challenges. Through ongoing communication built on appreciation, loyalty, and trust, we foster lasting customer relationships. With outstanding services, we help our customers achieve their goals. We are partners. We deliver.
